

AKIN ALBAYRAK

FRONT-END DEVELOPER

ABOUT ME

I am a passionate front-end developer who is craving to learn more everyday. Besides working on several apps and websites in an international firm, I also chase my own dreams -my own projects-.

I describe myself as a highly social, adaptive and versatile person.

SKILLS

REACT-NATIVE

WORK

BİLTAS Software Industry and Trade Inc.

React-Native Developer

December 2021 - Now

The company I currently work for is a business-to-business company.

The applications and websites made by the company are ERP.

Provides corporate financial and business solutions

I work in the mobile department of the company and I work alone

I take a role in developing the application that has been made.

And every day I do more to improve myself.

SEO SOLUTIONS AUSTRIA

04.2021-12.2021

Front-End Developer

In the company that develops mobile applications and websites that appeal to the end user, I worked as a front-end developer in both customer projects and firm's own projects. During this working period I had the opportunity to use and experience various programming languages in different fields.

OPAK YAZILIM

04.2021-12.2021

React-Native Developer

I developed mobile applications for company's own financial solutions and finance management.

EDUCATION

EGE UNIVERSITY

2018-2021

Computer Programming

During my education, I took highly valuable classes to understand programming literature and have a strong baseline. Thanks to qualified lecturers, I had many chances to discuss the fundamentals of computer science. Also other students with common interests helped me develop new ideas, and exchange ideas. Hence I am a passionate developer who is on a firm footing.
